## MORTGAGE FORECLOSURE ASSISTANCE

Are you struggling to pay your mortgage payment? If so, there is help for you. Most important, you must take immediate action to protect your home; don't ignore the problem. Call your mortgage company and keep communication open with them. Explain to them that you are having financial hardship and are looking to work out a payment arrangement (forbearance plan, loan modification, financial hardship assistance) that meets your current income.

You don't have to handle the situation alone. There are statewide, non-profit housing counselors in your area to assist with negotiations with your lender.

## Counseling and other Advocacy Resources
